DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 02/06/06 have been fully considered but they are not persuasive. Applicant's claims are so broadly claimed that the cited reference still covers the folding over and the stitching limitations, which is the only teaching that was relied upon for the Dreher reference. Applicant is arguing specifics that are not found in the claims. It is suggested that Applicant define the claims by adding actual method limitations- other than just "providing and forming", because technically such language is used in article claims. Or Applicant may submit a declaration proving that their folds and seams are different than that of the cited art. The rejection as such is maintained.

Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Applicant needs to more clearly define the methodical steps in formulating the airbag cushion that is claimed. It is suggested that Applicant elaborate the critical steps in making the invention, presently the claims read as if they are article claims.
- 4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ms. Arti Singh whose telephone number is 571-272-1483. The examiner can normally be reached on M-F 9-5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Terrel Morris can be reached on 571-272-1478. The fax phone
